

Soluciones antivibratorias. Aislamiento de vibraciones, choques y ruidos
Antivibration solutions. Acoustic and vibration isolation, shock protection
Solutions antivibratoires. Isolation des vibrations, chocs et bruits
Vibrationsdämpfende Lösungen. Lärminderung, Isolierung von Stößen und Erschütterungen

INTRODUCCIÓN / INTRODUCTION

LESOL, S.A es una empresa cuya actividad es la fabricación, comercialización y venta de material antivibratorio, así como la realización de estudios de ingeniería que de esta actividad puedan derivarse y que se concentran en el AISLAMIENTO DE VIBRACIONES, CHOQUES Y RUIDOS.

Desde 1984, aporta soluciones antivibratorias con el más alto nivel en productos, calidad y servicio.

LESOL, con sus sistemas antivibratorios, garantiza un correcto funcionamiento de los equipos, evitando la pérdida de potencia y reduciendo el número de averías. Aportando además, bienestar a las personas que trabajan en su entorno.

CALIDAD DE PRODUCCIÓN

LESOL, implicado en un sistema continuo de mejora, obtuvo y mantiene la certificación ISO 9001 en todos sus procesos de **"Fabricación y comercialización de material para el control de ruido, vibración y choques"**

LESOL dispone de la más alta tecnología en medios de desarrollo y control, lo que permite ofrecer a sus clientes unos productos y servicios de primera calidad.

LESOL S.A. manufactures and commercializes anti-vibration elements. Our engineering department realizes customized studies to **PREVENT FROM VIBRATION SHOCK AND NOISE.**

Since 1984, LESOL solves vibration problems ensuring high quality in production processes and customer service.

Antivibration systems guarantee a correct running of the machines and avoid loss of performance and prevent mechanical breakdown. In addition they contribute to the good health of the people working around.

PRODUCTION QUALITY

LESOL aspires to a continuous improvement of the production processes, according to the ISO 9001 Certificate.

LESOL disposes of the most updated and computer assisted technology for development and first quality services and products.

*Copyright by Lesol 2013 - 2nd Edition.
LESOL reserves the right to change design and specification of our products, without prior notification.
The informations and pictures are indicative and not contractual.*

LESOL, produit, distribue et vend du matériel antivibratoire. LESOL, S.A. réalise pour ses clients des études antivibratoires et préconise l'utilisation des silentblocks les plus adéquats pour L'ISOLATION DES VIBRATIONS, CHOCS ET BRUITS.

LESOL, fournit depuis 1984 des solutions antivibratoires du plus haut niveau, par rapport à ses produits, sa qualité et son service.

LESOL, avec ses systèmes antivibratoires, garantit le bon fonctionnement des équipements, évitant la perte de puissance et réduisant les pannes. Elle favorise en plus, le bien-être des personnes travaillant autour.

QUALITE DE PRODUCTION

LESOL, impliquée dans un système d'amélioration continue, a obtenu et maintient la Certification ISO 9001 pour tous les procès de « *Fabrication et commercialisation du matériel pour le contrôle du bruit, de la vibration et des chocs* »

LESOL, possède la plus haute technologie en moyens de développement et contrôle, ce qui permet d'offrir aux clients des produits et services de première qualité.

LESOL produit et vend des éléments pour l'amortissement des vibrations. Le département ingénierie réalise pour ses clients des études spécifiques d'applications pour l'ISOLATION VIBRATIONS, BRUIT, VIBRATIONS ET SECOUSSES.

Depuis 1984, LESOL résout les problèmes de vibrations avec une haute qualité dans le processus de production et la flexibilité dans le service à la clientèle.

Les amortisseurs de vibrations prolongent la durée de vie des machines, garantissent la fonctionnalité, empêchent la perte de puissance, les pannes et l'usure prématurée. Ils réduisent le bruit des machines, ce qui a un effet positif sur les personnes dans l'environnement.

PRODUKTIONSQUALITÄT

LESOL strebt nach ständiger Verbesserung der Produktionsprozesse gemäss Qualitätsnorm ISO 9001:2008.

Modernste, computergestützte Technologie dient der Entwicklung sowie der Qualitätskontrolle und optimiert Produktion und Kundenservice.
